

Apple iPhone SE (2. gen) 4.7" 256GB Sort

Description

Apple iPhone SE (2nd generation) - 4G smartphone - dual-SIM / Internal Memory 256 GB - LCD display - 4.7" - 1334 x 750 pixels - rear camera 12 MP - front camera 7 MP - black

Features

Med samme chip som iPhone 11 Pro

iPhone SE er designet i den mest populære størrelse med Apples stærkeste chip til den mest overkommelige pris. Lige det, du har ventet på.

Det avancerede kamerasystem

Det avancerede kamerasystem med A13 Bionic-chippen giver dig Portræt-funktion, som fokuserer på dit motiv og slører baggrunden på en smuk måde. Også når du tager selfies.

Luk mere lys ind

Næstegenerations Smart HDR genkender ansigter. På en intelligent måde lyssættes ansigtet, så konturer og hudtoner bliver mere naturlige. De lyse og mørke detaljer i baggrunden finindstilles også, så alle elementer i dit billede kommer til at se fantastiske ud.

4K-video

4K-video betyder, at du ser fire gange så mange detaljer som med 1080p HD-video. Og større dynamisk område fremhæver flere detaljer i lyse og mørke områder.

Med Touch ID kan du låse din iPhone op og logge ind i apps lynhurtigt og sikkert. Du kan endda bruge det sammen med Apple Pay til at købe en kop kaffe, hente en yoga-app eller shoppe sneakers på nettet. Helt uden at skulle have fat i dit kreditkort.

Indbygget anonymitet

Alt det, Apple skaber, er designet til at give dig kontrol over dine oplysninger. Alle iMessage-beskeder, du sender, er krypterede. Data om dit fingeraftryk gemmes på din enhed og aldrig på Apples servere eller i iCloud. Apple Pay deler ikke dit kreditkortnummer. Og meget, meget mere.

Overlever skvulp, sjask, stænk, sprøjt, skvæt og spild

iPhone SE er vandafvisende ned til 1 meters dybde i 30 minutter. Den er heller ikke bange for lidt kaffe, te eller sodavand. Og støv? Skal du ikke bekymre dig om.

Batteritid til timevis af seriefrås

Du kan roligt tage hul på en ny serie. For med iPhone SE kan du se op til 13 timers video på en enkelt opladning. Og når du får brug for at lade op, kan du bare lægge den på en trådløs oplader. Eller slutte den til en 18 W strømforsyning til hurtig opladning og gå fra 0 til 50 procent på 30 minutter.

Skabt til iOS 13

iPhone SE er skabt til at køre de nyeste funktioner - selv nogle, der ikke er blevet udviklet endnu. Så du kan bruge Mørk-funktion, Genveje i Siri og den nye Fotos-app allerede nu. Og få gavn af nye funktioner og sikkerhedsopdateringer i fremtiden.
